Memo For The Record

### SELECTION OF RADIOLOGICAL CONSULTANTS BY THE MARSHALL ISLANDS GOVERNMENT

Dr. Stephen Simon, now working at LLNL has been offered a job by RMI as Resident Chief Technical Advisor to RMI and the Nuclear Claims Tribunal on matters relating to nuclear claims and a possible radiological resurvey of the MI. Five others will be selected as advisors to complete a 6 person panel. The other 5, who will provide input on an ad hoc basis hope to include Dr. Andrew Mc Kuen from New Zealand and will include Dr. Herwig Poretsky from West Germany. The two are internationally respected scientists and a good choice by RMI in my view.

This group will consider whether another survey is warranted based on our 1978 effort and probably will want to accept my offer to meet in Las Vegas to discuss the whole issue.
