OPERATIONS PLAN  
MISSION NO. 90-2  
FY 1990  
EBEYE, MAJURO, UTERIK, MEJATO

I. BACKGROUND AND PURPOSE

Brookhaven National Laboratory has conducted medical surveillance on Rongelap and Uterik persons who were exposed to fallout from the 1954 nuclear event BRAVO. A controlled group of unexposed persons is also monitored for comparison data. Ship supported medical missions will be carried out on board the DOE vessel, the G.W. Pierce at all locations except Ebeye where the vessel will anchor to provide support as needed to the medical team working at DOE's shoreside facilities. This will be the sixth visit to Mejato Island, an island in Kwajalein Atoll to which the Rongelap population moved in May 1985.

II. WORK TO BE PERFORMED

A. Complete examinations of all exposed and several of the unexposed comparison population. In addition, examination invitations will be extended to various individuals not residing in the locations to be visited, and, at Ebeye & Majuro, to BNL I.D. card holders only.

B. Complete examinations at Uterik and Mejato of all individuals 15 years of age and older.

C. SICK CALL will be available ashore at Uterik and Mejato for anyone desirous.

D. As time permits, consultation and evaluations at Ebeye and Majuro of individuals referred by REPMAR health authorities to the mission medical staff.

III. RESPONSIBILITIES

The Party Chief will be Dr. William Adams who will be responsible for all medical aspects of the mission. William Jackson, Program Liaison Specialist, will serve as Department of Energy representatives and spokesman on policy matters. In addition, a Holmes & Narver representative will provide logistical coordination on behalf of BNL and the G.W. Pierce.

IV. LOGISTICAL SUPPORT REQUIREMENTS

Tasking letters sent to:

Holmes & Narver, Inc, Honolulu  
John Brown, DOE, Coordinator, Kwajalein  
Reynold DeBrum, DOE, Coordinator, Majuro
