PARA. THIS MESSAGE ASSIGNS TO YOUR OFFICE THE RESPONSIBILITY FOR A STUDY WHICH WILL DEFINE THE PROBABLE LIFESTYLE PATTERN(S) OF THE ENIWETOKESE PEOPLE SUBSEQUENT TO THEIR RETURN TO ENIWETOK ATOLL. THIS INFORMATION, IN CONJUNCTION WITH THE RADIOLOGICAL REPORT WILL BE USED IN THE DOSE ASSESSMENT ANALYSES AND IN THE DEVELOPMENT OF RECOMMENDATIONS REGARDING CLEANUP ACTIVITIES. ADDITIONALLY, THE INFORMATION MAY ALSO BE PROVIDED TO DOI AND JOD (JNA) FOR SUPPORT OF THEIR CLEANUP AND REHABILITATION PLANNING ACTIVITIES.

PARA. I DESIRE THAT YOU PROVIDE ME WITH YOUR PLAN FOR CONDUCT OF THIS STUDY IN ORDER THAT I MAY COORDINATE IT WITHIN HEADQUARTERS AND PROVIDE YOU WITH APPROVAL PRIOR TO THE INITIATION OF THE STUDY ITSELF. I EXPECT YOU TO CALL UPON SUCH EXPERTISE AS YOU DEEM NECESSARY TO MEET THIS ASSIGNMENT INCLUDING DIRECT CONTACT WITH

THE ENIWETOKESE. IN THE EVENT YOU DO NOT FEEL DIRECT CONTACT WITH  
THE ENIWETOKESE IS APPROPRIATE, I DESIRE THAT YOU PROVIDE ME WITH  
"PROS AND CONS" WHICH LED YOU TO THIS DETERMINATION.

PARA. I VISUALIZE THAT THIS STUDY WILL ADDRESS BOTH THE GENERAL  
LIFESTYLE PATTERN(S) AND SPECIFIC MODELS AS APPROPRIATE. MOST  
LIKELY, ONE OR TWO BASIC CASES WOULD BE DEVELOPED WITH A NUMBER OF  
ALTERNATIVES ADDED SO AS TO HAVE AVAILABLE A RANGE OF POSSIBLE  
(AND REASONABLE) PARAMETERS. BY SEPARATE CORRESPONDENCE, I WILL  
PROVIDE YOU WITH A LIST OF QUESTIONS WHICH HAVE BEEN DEVELOPED WITHIN  
HEADQUARTERS. THESE QUESTIONS REPRESENT THOSE WHICH THE LIFESTYLE  
PATTERN(S) MUST ANSWER.

PARA. PLEASE LET ME KNOW WHEN YOU ESTIMATE YOUR PLAN WILL BE  
AVAILABLE FOR MY REVIEW. DMA CONTACT ON THIS MATTER IS CDR  
WOLFF (TEST OFFICE, 301-973-4007). MA:T:WFW:117-1.

In the U.S. my opinion  
does not fit the job  
described in the T.A.X.  
to order to "define the  
probable lifestyle patterns"  
adequately to make a  
"disease assessment analysis" and  
to use the study to define  
such an analysis, this  
study, even though limited,  
should be done by people  
recognized as experts by  
their peers. Such a study  
will be in the public domain.

and if not done properly  
could cast doubt on the  
excellent survey work  
done to date. If it is not  
acceptable to the scientific  
community, it probably  
would be better to not  
do it at all.

B. T.

Manager --

I agree with most of what Thalgott has to say. Specifically, I agree that my proposed effort will not do the job that is asked for in the HQ TWX, mostly because I believe that the HQ TWX is not a very good description of what General Camm wants us to do. I have, therefore, chosen to restate the task in our response and ask his concurrence. This really applies to the difference between defining the probable life-style patterns and developing a model of the most likely pattern of resettlement.

As you know, Camm's message is an attempt to placate Biles without seriously detracting from or interfering with the major task which we had already been assigned. I do not view this new task as a scientific effort, nor do I believe that it will significantly add to or detract from our efforts on the Survey-proper and the report thereof.

  
Roger Ray  
AMO

*Not initialed, but tend to agree  
with Thalgott.
